Dear class,

When you are ready to submit a score for a challenge level, please email us (Dr. Kaiser and me) a screenshot of the classification plot and the confusion matrix, as well as a single value for the accuracy and error in classification.

I have attached a sample document. Please try to follow this, but if you feel like there is other information that is important in order to show us your progress, feel free to add it. All of the information should be placed on one PDF document.

You can submit your results more than one time per level (if your accuracy increases, for example), but try not to flood our inboxes :) It will be nice to see updates prior the last day.

All groups need to submit this document for Level 1 by the end of Friday (10/18). Anybody in the group can email it in, just please include all of your names on the document.

A reminder of the test procedure for Level 1:

Stand, 15 sec  
Slow walk, 25 meters  
Stand, 15 sec  
Fast walk, 25 meters  
Stop & turn-around  
Stand, 15 sec  
Fast walk, 25 meters  
Stand, 15 sec  
Slow walk, 25 meters  
Stand, 15 sec

Please let me know if you have any questions. Dr. Kaiser and I are very happy with the progress you all are making!!

Sincerely,  
Vince
